SKILLS

C++ - strong writing - leadership - troubleshooting - problem solving -collaboration - project management

EDUCATION

Florida A&M University, Tallahassee — *GPA: 3.42*

August 2024 - Present, Florida

- Pursuing a degree in **Information Technology**
- Acquiring skills in **coding, network maintenance, and computer hardware management**. Although there is still much to explore, I am confident in my ability to grasp new concepts and apply them effectively. Coursework and hands-on experience are continuously expanding my technical expertise and problem-solving abilities.
- Currently taking **Intro to Computer Security, Tech report writing, Database management and Web programming & design**

Valencia College, Orlando — *A.A*

August 2021 - May 2024, Florida

- Earned my **Associate of Arts (A.A.)** degree and graduated from Valencia College during high school, demonstrating my ability to excel in both high school and college-level coursework.

EXPERIENCE

Game Code

November, 2024

- Coded a simple numbers game with two others
- Designed code flowcharts
- Troubleshot coding errors

FIRST Robotics— *Robot Designer*

2017 - 2022

- Utilized **Creo Parametrics**, digitally designed and tested various robot models prior to the physical construction phase. Ensuring functionality and efficiency before the build process. Allowing for full evaluation and optimization of designs.
- Manager and primary caretaker of the **Engineering Notebook**, recorded daily activities and maintained the project schedule, documenting progress as well as setbacks.

AWARDS

- During robotics competitions, my team won the Best Notebook award every time.
- Received AB honor roll awards, Photoshop certification, and Premiere Pro certification.
- NSHSS Membership

Community Involvement: Robotics - Helping Hands (Aiding the homeless) - Drama Club - Choir - Black Student Union
